

# Translator/ Interpreter Application Form

Name	Date

I am able to fluently translate/interpret in the following languages:		
Language	Translate	Interpret

\* Both translators and interpreters work with languages, but in very different ways: the key difference is that translators work with written words and interpreters work with spoken words. An interpreter translates orally, while a translator interprets written text.

The Moose Jaw Multicultural Council administers two separate lists of Volunteer Interpreters/ Translators. Individuals who are not comfortable with having their services and contact details shared broadly in the community often register only for MJMC’s private list. This list is for internal use only by MJMC staff and it is never shared beyond our organization.

A second, public version is shared through our website and distributed to newcomer clients as well as various community agencies such as: police, hospital, social services, Moose Jaw Housing and many more.

Please indicate below which list(s) you would like to be added to. By signing below, you are giving MJMC permission to add you to the list(s) you have indicated and to distribute your name and contact details accordingly. By signing, you are also affirming that you have sufficient knowledge of the English language and the languages you have listed on this form to interpret/ translate competently.

I agree to have my name added to:		
Private List—For MJMC use only	YES	NO
Publicly distributed list	YES	NO
Signature	Date (DD/MM/YY)
